

# Trimester 2 Design Project

## *Material List*

- String
- Magnets
- Pipe cleaners
- Egg cartons
- Rubber bands
- Foil
- Metal Washers
- Tape
- One classroom chair per group

Teacher suggestions: Allow the students to decide where they want to hang the swing (the side, in the middle, etc). The chair legs and seat will be considered the frame of the swing so the students are able to manipulate it using the materials of their choice to achieve success.
